COMMENTS INVITED ON APPLICATION OF XO COMMUNICATIONS, LLC TO DISCONTINUE DOMESTIC TELECOMMUNICATIONS SERVICES

WC Docket No. 12-313
Comp. Pol. File No. 1059

Comments Due: November 8, 2012

Section 214 Application

Applicant: XO Communications, LLC

On October 9, 2012, XO Communications, LLC (XO or Applicant), located at **13865 Sunrise Valley Drive, Herndon, Virginia 20171-4661**, filed an application with the Federal Communications Commission (FCC or Commission) requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue certain domestic telecommunications services in Arizona, California, Colorado, Delaware, the District of Columbia, Florida, Georgia, Idaho, Illinois, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nevada, New Jersey, New York, North Carolina, Ohio, Oregon, Pennsylvania, Tennessee, Texas, Utah, Virginia and Washington (collectively Service Areas).¹ With amendments filed on October 17, 2012 and October 23, 2012, XO corrected certain deficiencies in its application and updated the record regarding XO's operating subsidiaries and the geographic areas of service affected by the proposed discontinuance. Accordingly, XO's application is deemed complete as of October 23, 2012.

XO indicates that it currently offers Wholesale Dial, Enterprise Dial and Managed Modem Port Services (collectively Dial-Up Services) in the Service Areas through its operating subsidiaries, XO Communications Services, LLC, XO Telecommunications of Nevada, LLC and XO Virginia, LLC (collectively XO Subsidiaries). XO explains that its Dial-up Services provide subscribers with interstate domestic dial-up transmission-only services that allow access to ISPs. XO states, however, that it is in the process of streamlining its product offerings and that it has decided to discontinue its Dial-Up Services in order to better focus on services most requested by customers. XO specifies that it plans to discontinue its Dial-Up Services effective November 26, 2012. According to XO, affected customers should not be harmed by the proposed discontinuance because there are alternative dial-up service providers and technologically advanced services that perform essentially the same or better functions. XO maintains that customers should still be able to access ISPs through alternative means including through other telecommunications carriers as well as through the ISPs themselves. XO indicates that it provided written notice to affected subscribers by first class mail sent on October 8, 2012. XO states that it is considered non-dominant with respect to the services to be discontinued.

¹ The application was subsequently received in the Competition Policy Division of the Wireline Competition Bureau on October 12, 2012.

In accordance with section 63.71(c) of the Commission's rules, XO's application will be deemed to be granted automatically on the 31st day after the release date of this public notice, unless the Commission notifies XO that the grant will not be automatically effective. In its application and notice to customers, XO indicates that it plans to discontinue its Dial-Up Services effective November 26, 2012. Accordingly, pursuant to section 63.71(c) and the terms of XO's application and notice, absent further Commission action, XO may terminate its Dial-Up Services in the Service Areas on or after **November 26, 2012**. The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

Comments objecting to this application must be filed with the Commission on or before **November 8, 2012**. Such comments should refer to **WC Docket No. 12-313 and Comp. Pol. File No. 1059**.
